

SERIES E FOR BOATS UP TO 100 FT

ZIPWAKE

This is no ordinary transom-mounted interceptor system.
It's intuitive. It's amazingly effective. It's fully automatic.
With the Series E, boating has never been smoother,
safer, or more comfortable.

BOATING AT ITS BEST

PURE AND SIMPLE

BENEFITS

WHY THE SERIES E STANDS ALONE

WHEN WE SAY FULLY AUTOMATIC, WE MEAN IT

No other system is so easy to use. Just press the AUTO button and let the Series E do the work. No manual adjustments necessary.

HOLD STEADY

Say goodbye to uncomfortable pitch and roll. The Series E dynamically and automatically keeps your boat on an even keel—regardless of wind, load distribution or rough waves.

EXPAND YOUR COMFORT ZONE

With the Zipwake system installed, you don't have to drive fast to get your boat up on plane. This means you can enjoy a comfortable ride even at lower speeds.

TURN IN STYLE

Perfectly coordinated turns—every time. Whatever your speed, the Series E automatically adjusts the heeling angle of your boat for a safer and more comfortable ride.

KEEP YOUR EYE ON THE HORIZON

Enjoy better visibility. Zipwake interceptors extend at least 5 × faster than conventional trim tabs to get you on plane quickly, so you never lose sight of what's in front of you.

UP TO 20%
FUEL SAVINGS

Our systems automatically minimize wave resistance and improve boat performance. This can reduce your fuel consumption by as much as 20%.

PURE JOY

HOW IT WORKS

TOTAL RIDE CONTROL

The robust Series E was developed for larger boats (up to 30m/100ft) and professional use. Designed for long operational hours and tough conditions, the system gives you unmatched command of running trim, heel and heading. No matter what.

COMPLETE AND EASY TO INSTALL

Includes everything you need to get up and running quickly—no additional components required. Thanks to the modular design, the system is also easy to expand.

INTUITIVE AND PRECISE CONTROL

Innovative 3D controls provide unmatched control of running trim, heel and heading.

CONFIGURABLE FOR OPTIMAL PERFORMANCE

Each pair of port and starboard interceptors can be customized separately for active and inactive control of pitch, roll and yaw.

DURABLE AND EFFECTIVE

Patented large, durable, fast-acting interceptors provide supreme lift.

INTEGRATOR MODULE LEAFLET

INTEGRATOR MODULE

CREATE YOUR PERFECT SET-UP

Get all the joy of a Zipwake system without adding clutter to your dashboard. The Integrator Module seamlessly connects the system to your boat's chartplotter/MFD and your smart devices (included in Kit Boxes for integration).

CLEAN DASHBOARD

No control panel required: the Integrator Module lets you operate your Zipwake system via chartplotter/MFD.

SEAMLESS INTEGRATION

Connect to multiple chartplotters/MFDs from different manufacturers.

WIRELESS CONNECTIVITY

Configure, operate, monitor and update the system wirelessly via the Zipwake app on your smartphone or tablet.

EASY TO INSTALL—ANYWHERE

Discreet and waterproof, the Integrator Module fits behind the helm/dash, on the flybridge or in the engine room.

CONTROL PANEL

STYLISH AND INTUITIVE

The Series E control panel puts a smoother, more comfortable ride at the tips of your fingers. Features a sunlight-readable and waterproof color display and an AUTO button for fully automatic trim and motion control.

PRODUCT RANGE

A SYSTEM FOR EVERY TRANSOM

Zipwake gives you a wide range of interceptors to choose from, making it easy to configure the optimal system for your boat.

Each Series E Kit Box comes complete with everything you need to install a Dynamic Trim Control System. Choose between a standard Kit Box with a control panel or a Kit Box for integration, which includes an Integrator Module.

IT400-E

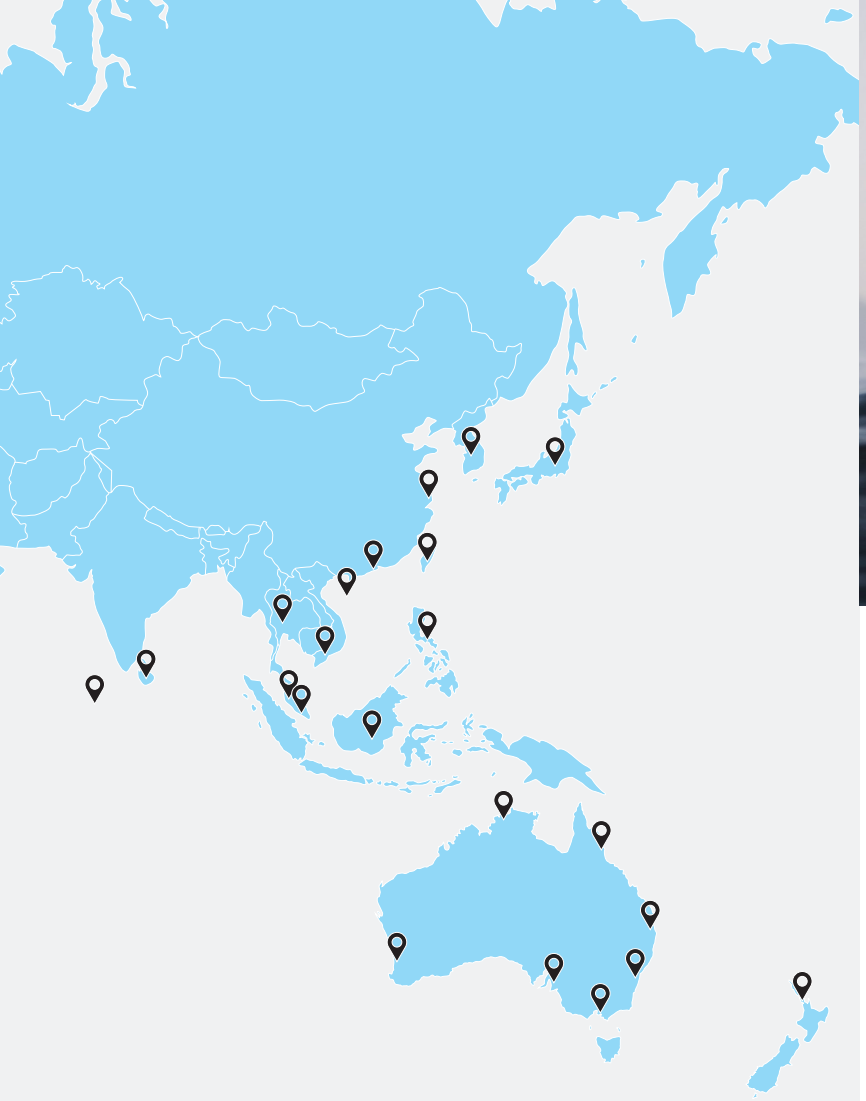
SMALL ENOUGH TO FIT BIG ENOUGH TO MAKE A DIFFERENCE

The IT400-E is the smallest interceptor in our Series E product line. Thanks to its 60 mm blade stroke, the IT400-E is the ideal choice for boats that have limited transom space but also need excellent lift force, such as large boats with multiple outboard motors or stern-heavy small boats.

NEED A HELPING HAND?
WE'RE THERE.

Our global support network of certified dealers and distributors is standing by. Visit www.zipwake.com to find one near you.



2
YEAR
WARRANTY

PEACE OF MIND INCLUDED

The Series E is designed to give you many years of trouble-free operation, with no maintenance required. For added peace of mind, the system is backed by a 2-year warranty.
